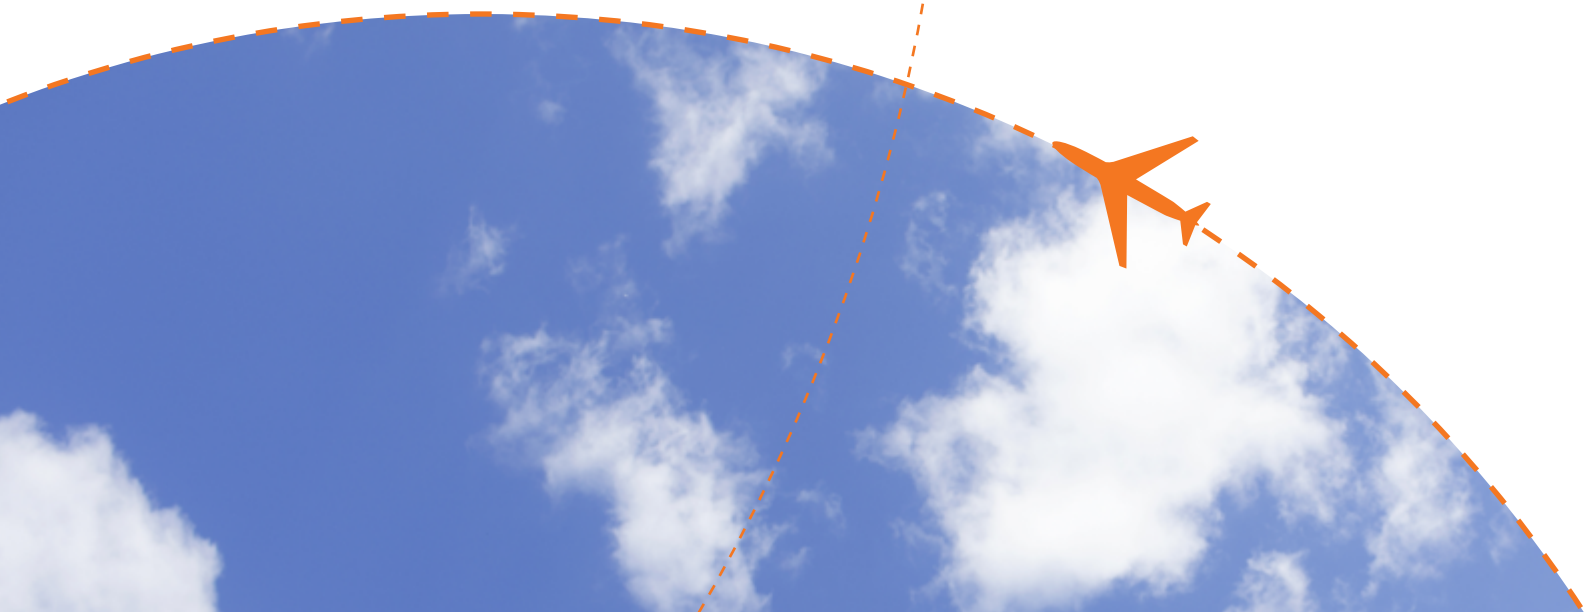
FRAMEWORK

The "Lorraine Management Innovation Collegium (LMI)" is part of the University of Lorraine (UL). UL is a Public Higher Education Institution located in the North East of France in the Lorraine Region. It represents 55,000 students, 6,680 employees, 60 research laboratories, a budget of €567 million and more than 1800 PhD students. It is a Pluridisciplinary University. It offers courses in the areas of: Science, Health, Technology, Engineering sciences, Human and Social Sciences, Law, Economics, Management, the Arts, Humanities and Languages; These areas are organized within 9 Collegiums. The LMI Collegium includes two Schools of Management (ESM-IAE Metz and ISAM-IAE Nancy) and a faculty of Computer Science in Nancy (UFR MI Nancy). The LMI offers degrees in Business Administration, Computer and Cognitive Science and Natural Language Processing from Bachelor to Phd Level.

The international relations development of the LMI Collegium and the recruitment of international students are one of its main targets. The ongoing development of international collaborations will enable us to reach our goals: on a teaching level by developing English courses, Degrees taught exclusively in English, double degrees, off-campus training course and scientific collaborations. By studying at UL, students are offered a wide range of French- and English-taught programmes that incorporate internships, consulting projects, company visits, industry expert seminars, networking events and more. Our overarching goal is to provide students with a unique opportunity to interact with a broad and global network.

ISAM-IAE Nancy and ESM-IAE Metz are the two Schools of Management at UL. They are both members of the network IAE France which connects 32 Institutes of Business Administration over the country for the advancement of Management teaching and research. UFR MI Nancy is one of the 20 members of the french MIAGE network. the Master of Cognitive Science is referenced by the unity RISC of CNRS and the Master in Natural Language Processing is part of the European Master in Language and Communication (LCT).



ISAM-IAE

ISAM-IAE of NANCY created in 1956 provides extensive knowledge in Business Management, Social and Health-Care Management and Public Administration at the Undergraduate and Graduate levels. It continuously pursues excellence in management education by providing academic programs tightly connected with companies, NGOs, local authorities and public administrations, and with the state-of the-art research work, through its research centres in Management, Law and Political Science, Economics and Sociology. ISAM-IAE Nancy prepares management students to understand and respond to organizational and social challenges and provides support and further education opportunities for executives. ISAM-IAE Nancy offers a full range of management degrees, which are awarded by the University of Lorraine and recognized by the French Ministry of Education. ISAM-IAE Nancy has over 40 international agreements with partner universities in Europe and around the world. Every year, about 50 students from ISAM-IAE study abroad, while about 30 international students come to ISAM-IAE Nancy.

ISAM-IAE of NANCY key figures:

- 1,500 undergraduate and graduate students, including continuing education students
- Several training programmes in the following levels:
  - BA (3-year undergraduate programme): Business Studies; Economic, Social and Public Administration
  - Professional BA (third year of university, undergraduate programme): Human Resources; Retail Industry
  - MBA (one or two years' duration after the BA, graduate programme): Finance; Marketing; Accountability-Auditing; Human Resources; Public Administration; Health and Social Management; General Management
  - PhD: Business Studies
- 60 full-time faculty members
- 300 professional experts

CREDITS

The University of Lorraine applies the European Credit Transfer System (ECTS). One ECTS represents approximately 28 hours of work, which include lectures, applied exercises, lab work and private study. You can earn 30 credits per semester; a full academic year is 60 credits.

STUDY PERIOD AND APPLICATION

To participate to the exchange program you have to be enrolled into your university having signed an agreement with UL:

1. Inquire with your home institution about the methods of selection
2. Your institution will transfer the list of selected candidates to the international office of the UL to the following address, specifying your field of study: **drie-mobilite-contact@univ-lorraine.fr**

Once selected by your home institution, you have to **get hold of your application** at: **https://mobilite.univ-lorraine.fr/incoming/**

Nomination and Application deadlines:

- Autumn semester : May 15th for Nomination and May 30th for the application
- Spring semester : October 15th for Nomination and October 31th for the application

Academic calendar :

- Autumn semester : September to December
- Spring semester : January to April / May

Moreover for all questions about the courses in the present document, you should contact previously the following contact persons at:

STUDENT LIFE IN NANCY AND METZ

Being a student in Nancy and in Metz is a truly great experience. The cities do their best to ensure students feel at home and have access to all the amenities they need. There are 55,000 students out of a total population of 450,000- which not only lowers the average age, but ensures a youthful atmosphere throughout the cities. There are always plenty of things to do.
Nancy's and Metz's schools and faculties are historically based in different areas of the cities, creating the optimal conditions for a lively and dynamic atmosphere.
The large number of higher education institutions in the city means many students, excellent everyday services and a wide range of leisure activities and entertainment, including sports, cinemas, bars, restaurants, theatres and cultural activities.
The international office of the UL and the ESN team (**http://nancy.ixesn.fr/**) will be happy to help you get around.
